## STOCK YOUR FIRST AID SUPPLIES THE SIMPLE WAY

Accidents happen, and it's important to have first aid supplies on hand when you need them. **In fact, OSHA Standard 1910.151 states that every business must have first aid readily available.** But many organizations find that keeping their first aid cabinet stocked and ready is time consuming and inconvenient.

Let us take the work off your hands with our first aid and safety rental program. **Not only do we deliver the supplies you need, but we also use proprietary technology to track your needs.**

### Eliminate Hassles

We install your cabinet and restock it on a weekly or biweekly basis, freeing you to focus on other priorities

### Make Budgeting Easy

You invest a consistent amount every week

### Save Time

Our technology provides insight into how frequently items are being used, so you don't have to monitor inventory

### Stay Organized

We provide uniform cabinets with intuitive supply placement that stays consistent throughout ongoing refills

### One-Stop-Shop

As a single-source supplier, we offer the simplicity of a single invoice for a wide variety of products and services

## PROGRAMS BUILT FOR YOUR NEEDS

The quantities and types of first aid supplies you need depend on the size of your business and the safety hazards present in your work environment.

We'll work with you to identify your needs and plan the perfect program based on your answers to questions such as:

How many **first aid cabinets** do you currently have?

How big is your **building**?

How many **employees** do you have?

Where do cabinets need to be placed to offer **easy access**?

What **first aid supplies** do you use the most?

## CHOOSE YOUR CABINET SIZE

### LARGE CABINET

Meets ANSI | ISEA Z308 - 2021

MLS Item Number: 1026-0000

Price: \$14.95/weekly

\*Includes meds.
